Requirements Branch

2 January 1957

THRU : Chief, Industrial Division, OHR
Acting Chief, Medium Machinery Branch, D/I

St/I Office Notice #100 -- Folders #48 (Ryazan') and #70 (Voronezh)

25X1C

1. [REDACTED] #48 -- Ryazan'

A. Ten kilometers outside the city of Ryazan' (direction unknown), a new metalforming machinery plant is under construction. According to press reports, the plant has begun to produce hot and cold forging machines and will produce hydraulic pumps, as well, in the future.

B. The following information is desired:

(1) Information concerning the size and the status of construction of the plant -- including photographs, dimensions of the main buildings, evidences of continuing construction activities, rail connections, and, if possible, estimates of the number of employees.

(2) Information concerning the exact location of the plant -- street address, map position and the like.

25X1C

2. [REDACTED] #70 -- Voronezh

A. Voronezh, the center of the metalforming machinery industry in the USSR, is the home of two plants and a research institute. These are, (1) the Voronezh Forge-Pressing (metalforming) Machinery Plant imeni Kalinin, a large, well established plant, (2) the Voronezh Heavy Mechanical Presses Plant, a new plant still under construction, (3) the Experimental Scientific Research Institute of Press and Forging Machine Building (ENIKMASH) and its experimental plant. The organization of the institute and the construction of the experimental plant have only recently begun.

B. The following information is desired:

(1) Information concerning the size and status of construction at the various plants -- including photographs,
